ABOUT US

SUMEX PHOTO CO.,LTD

Founded in 2004, Sumex Photo Co., Ltd. has distinguished itself as a leading producer and exporter in the realm of inkjet printing and heat transfer technologies. With two decades of expertise, our Jiangsu, China-based operation stands as a premier coating and manufacturing hub for inkjet media and sublimation blank media.

Our comprehensive investment in cutting-edge coating facilities and heat transfer machinery underscores our commitment to delivering superior sublimation and personalized printing solutions. We pride ourselves on offering a seamless, one-stop service experience, catering to a wide range of digital printing and heat transfer needs.

We supply sublimation blanks such as mugs, metal bottles, glass bottles, glass photo frames, aluminum plates, MDF boards, photo slates, ceramic tile, and sublimation polyester fiber fabric blanks.

We also specialize in supplying a variety of heat transfer papers, inkjet photo papers, printing media, and a full spectrum of printer inks to meet diverse printing requirements.

In addition to materials and consumables, Sumex Photo offers an extensive selection of equipment, including heat transfer machines, Direct to Film (DTF) printers, and DTF specific consumables such as films, inks, and powders. Our catalog also features top-selling desktop and large-format

sublimation printers, tailored for both intricate and expansive printing tasks.

Our DIY printing products further expand creative possibilities, and we invite inquiries for more details about our offerings.

With around 20 years of dedicated service in the digital printing sector, Sumex Photo has forged lasting partnerships with hundreds of global clients. Our unwavering commitment to quality and innovation ensures that we not only meet but exceed the expectations of our customers, fostering enduring profitability and success.

OUR FACTORY

SUMEX PHOTO CO.,LTD

Our factories are located in Shandong, Jiangsu, Anhui, Zhejiang, Guangdong

We produce sublimation transfer paper, machines, consumables, inks, and can produce most types of sublimation transfer blanks, such as sublimation ceramic mugs, sublimation rock slate photos, sublimation glass, sublimation crystals, sublimation metal bottle, sublimation MDF, etc.

We make photo paper, dye ink and other inkjet printing products. HTV products. We also make DTF, DTG, UV and other related products. The factories are widely distributed and the logistics speed is fast.

We can supply one-stop service for your order so that you can mix all goods in one container and ship together.

DTF PRINTING SOLUTION

DIRECT TO FILM TRANSFER DTF

Sumex DTF printer consumables and full set solution.

DTF-S30-1A

Voltage: 220V/110V
Printing format: 30cm
Packing Size:
78×39×31.6 cm
Net/gross weight: 24kg
Print head: XP 600

Applications

The DTF printer is predominantly used in small boutique clothing shops, print production facilities, and bespoke for individual clients.

Features

- 1.High-definition fast printing, no slanted spraying and no ghosting, strong white ink coverage.
- 2.White ink stirring/circulation effectively prevents ink precipitation from causing printhead clogging achieve stable white ink output after printing.
- 3.Simple operation / easy to understand, LED display data is more accurate.

COLORS CAN
BE CUSTOMIZED

DTF-S30-1B

Voltage: 220V/110V
Printing format: 30cm
Packing Size:
81×42×47 cm
Net/gross weight: 48kg
Print head: XP 600

Applications

The DTF printer is predominantly used in small boutique clothing shops, print production facilities, and bespoke for individual clients.

Features

- 1.High-definition fast printing, no slanted spraying and no ghosting, strong white ink coverage.
- 2.White ink stirring/circulation effectively prevents ink precipitation from causing printhead clogging achieve stable white ink output after printing.
- 3.The whole process is operated by touch screen, which is simpler, exquisite and fashionable.

COLORS CAN
BE CUSTOMIZED

DTF Printer 30cm (2 heads)

Specifications

Printing Speed: 1m²/h-4.5m²/h
 Printing Size: A3+/A3/A4 PET film/300 mm
 Ink Type: DTF ink
 Print Head: XP 600 × 2

Applications

The DTF printer is predominantly used in small boutique clothing shops, print production facilities, and bespoke for individual clients.

Features

- 1.The DTF printer suits heat stamping applications on any fabric type and color background.
- 2.It streamlines the printing process without the need for separate powder shaking or manual interventions.
- 3.The printer boasts a wide color gamut and high fidelity color reproduction.
- 4.Equipped with a front heating system for improved printing performance.

Premium DTF Printer 30cm (2 heads)

Specifications

Printing Speed: 4m²/h-8m²/h
 Printing Size: A3+/A3/A4 PET film/300 mm
 Ink Type: DTF ink
 Print Head: XP 600 × 2

Applications

The DTF printer is predominantly used in small boutique clothing shops, print production facilities, and bespoke for individual clients.

Features

- 1.The DTF printer suits heat stamping applications on any fabric type and color background.
- 2.It streamlines the printing process without the need for separate powder shaking or manual interventions.
- 3.The printer boasts a wide color gamut and high fidelity color reproduction.

DTF Printer 60cm (2 Print Heads)

Specifications

Printing Speed: 6m²/h-12m²/h

Printing Width: 600 mm

Ink Type: DTF ink

Print Head: XP 600/i3200x2

Applications

The DTF printer is predominantly used in small boutique clothing shops, print production facilities, and bespoke for individual clients.

Features

1.The DTF printer suits heat stamping applications on any fabric type and color background.

2.It streamlines the printing process without the need for separate powder shaking or manual interventions.

3.The printer boasts a wide color gamut and high fidelity color reproduction.

Premium DTF Printer 60cm (4 Print Heads)

Specifications

Printing Speed: 6m²/h-12m²/h

Printing Width: 600 mm

Ink Type: DTF ink

Print Head: i3200 × 4

Applications

The DTF printer is predominantly used in small boutique clothing shops, print production facilities, and bespoke for individual clients.

Features

1.The DTF printer suits heat stamping applications on any fabric type and color background.

2.It streamlines the printing process without the need for separate powder shaking or manual interventions.

3.The printer boasts a wide color gamut and high fidelity color reproduction.

UV DTF PRINTING SOLUTION

Your one - stop supplier for printing equipment, printing media, consumables, and all related printing supplies at very competitive prices.

At SUMEX, we have everything you need to create stunning prints. We are looking forward to be your reliable partner in the printing industry.

A3 UV Roll to Roll Printer

Voltage: 220V/110V
Printing Format: 30 cm
Packing Size: 150 × 76 × 70cm
Net/gross weight: 120kg
Print Head: XP600 × 3

Applications

This A3 UV roll to roll printer is suitable for producing custom designs on different shapes and types of surfaces, including hard, flat, soft, and

A3 UV Flatbed Printer

Voltage: 220V
Printing format: 60cm
Packing Size:
190 × 100 × 150 cm
Net/gross weight: 110kg
Print Head: i3200

Applications

This UV flatbed printer excels in producing custom prints on a variety of substrates, including acrylic, PC, PS, PVC, PET, KT board, ABS, metal (with coating), and glass (with coating).

300mm Crystal Label UV Printer

Voltage: 220V/110V
Printing format: 30cm
Carton Size: 142 × 105 × 82cm
Weight: 120kg
Print Head: XP 600 × 3/
i1600 × 2/i1600 × 3/i1600 × 4

Applications

The crystal label UV printer is ideal for customizing a wide range of products, regardless of material or shape. It can handle hard surfaces, flat surfaces, soft surfaces, and curved surfaces, making it highly versatile for various customized printing needs.

60cm UV Roll to Roll Printer

Voltage: 220V
Printing format: 60cm
Packing Size:
190 × 100 × 150 cm
Net/gross weight: 110kg
Print Head: i3200 × 3

Applications

This 60cm UV roll to roll printer is suitable for producing custom designs on different shapes and types of surfaces, including hard, flat, soft, and curved products.

DTG Direct Print Ink

Capacity: 1000ml

Color: **C** **M** **Y** **K** **W**

Color: **R** **G** **B** **OR**

Features

This ink generates intense white underbase and highlight, producing a bright and opaque white layer on the printed materials.

It achieves rich color density and exceptional color reproduction.

Engineered for excellent ink fluidity, it meets the demands of both low and high-temperature printing environments and is suited for long-term continuous printing.

The quick-drying formula ensures the print head remains unclogged, and the ink sets without bleeding, for clean, precise prints.

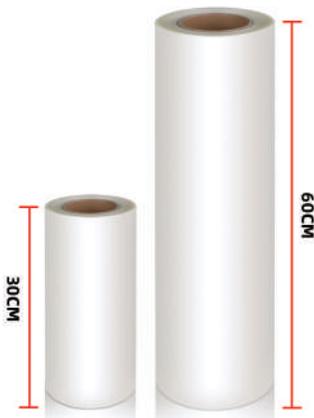

It features environmentally friendly composition, which helps to preserve the print head.

Designed to leave prints with a soft feel, and offering good stretch and resilience, it enhances the texture and durability of printed items.

DTF consumables

A3/A4 DTF transfer film(single side/double side)
Engineered with superior transparent PET materials.It including cold peel, hot peel, and immediate peel.

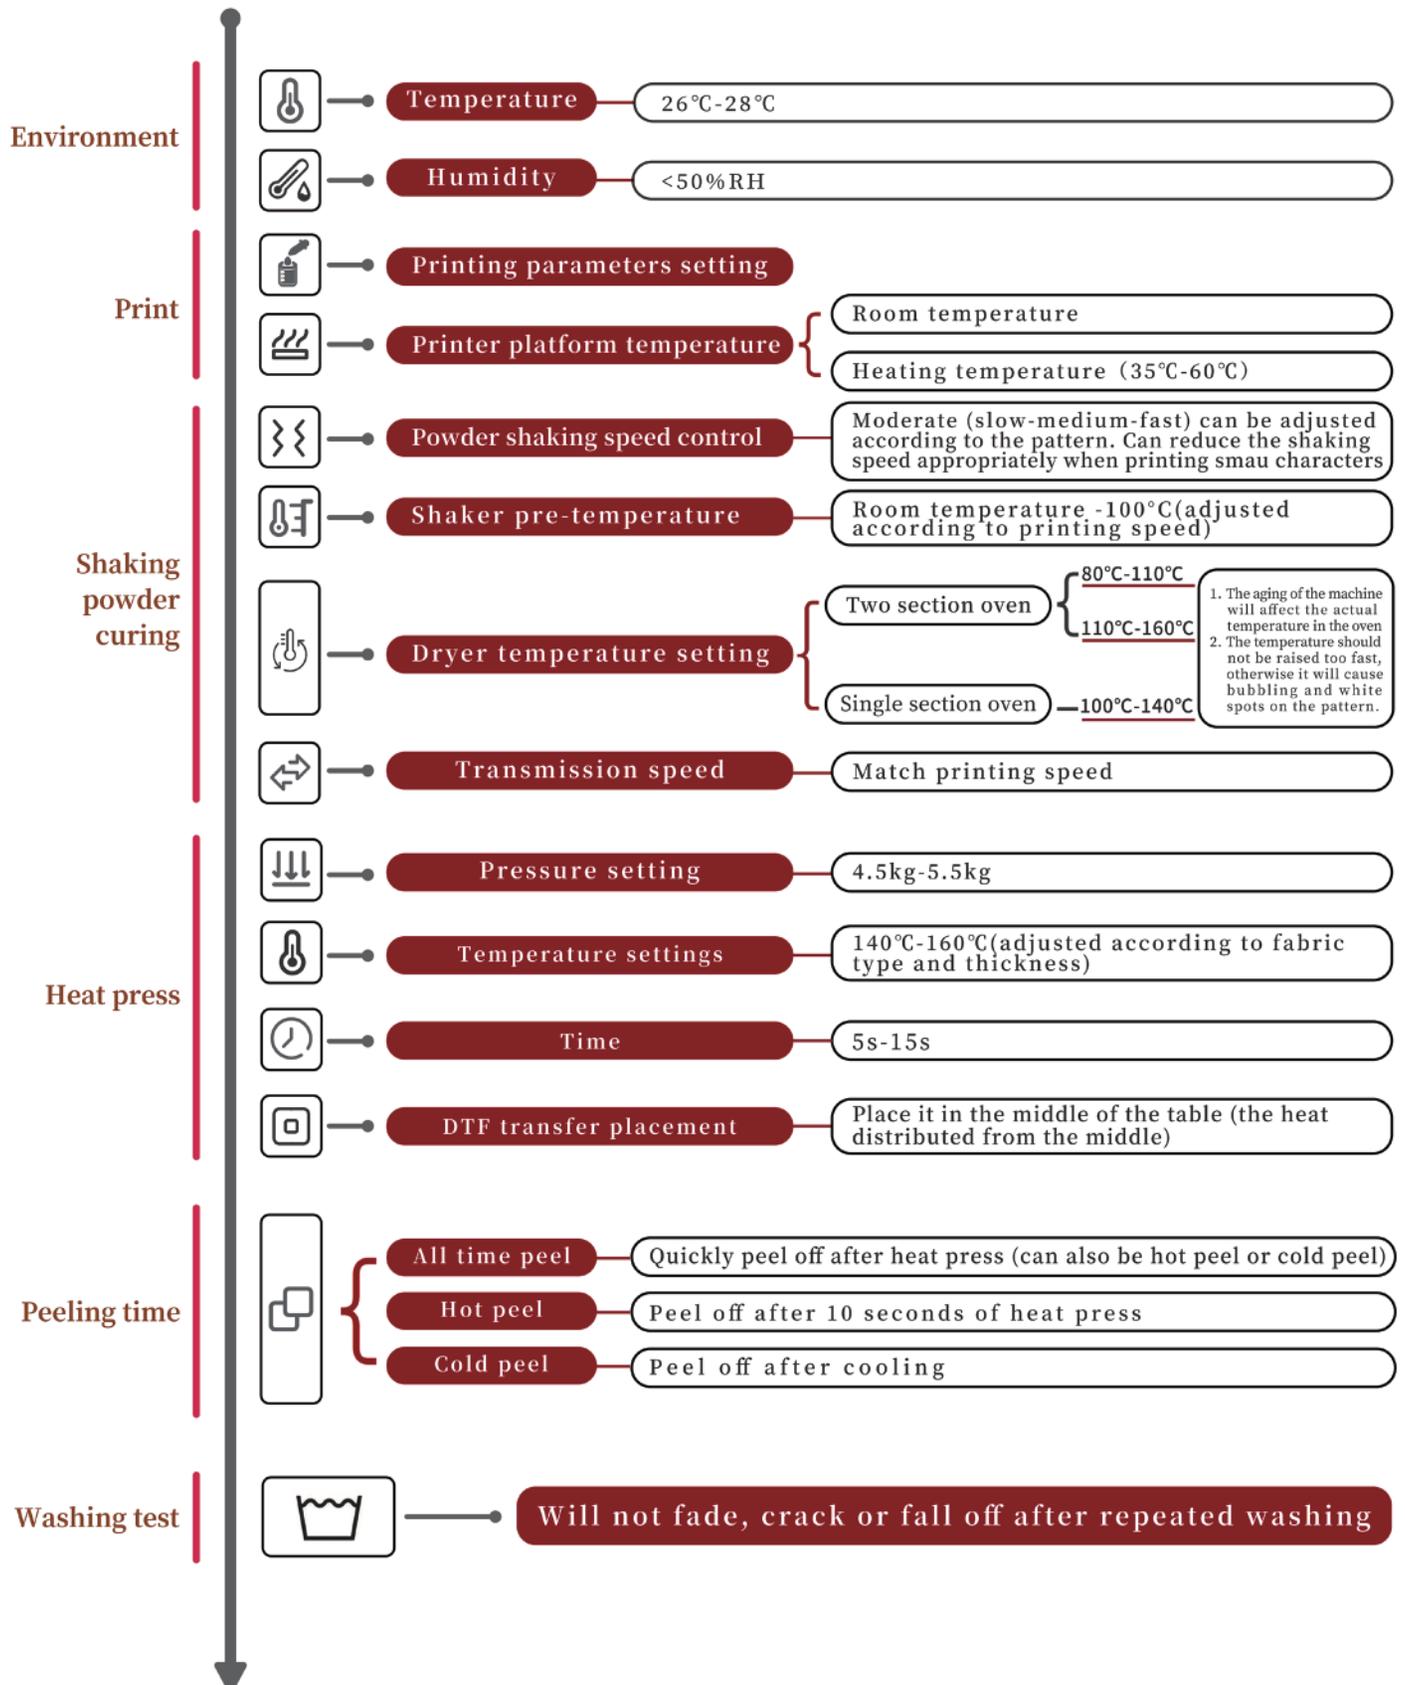

DTF Transfer Film Roll (30cm/60cm×100cm)
Engineered with superior transparent PET materials.
It including cold peel, hot peel, and immediate peel.

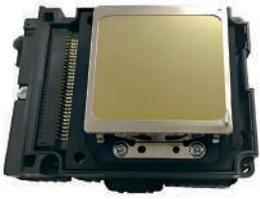

DTF Transfer Paper(30cm/60cm×100cm)
Our DTF transfer paper is crafted from recyclable materials.
High temperature, wrinkle and rub resistance with excellent color printing capabilities.

2 rolls (1 roll metallic & 1 roll B)
size: 60cm

HTV Heat Transfer Vinyl

What Exactly is Heat Transfer Vinyl?

1. Introduction
Heat Transfer Vinyl, generally abbreviated as HTV, refers to a special vinyl that will help you successfully transfer your designs to different fabric materials.

You can use HTV in rolls or cuts. It has an adhesive surface that allows you to easily cut, weed and place your designs on the heat. Vinyl is made of single colors but with special options such as glitter, flock, 3D puff, etc., depending on your needs.

It is a special material made of vinyl. It is usually used in designing fabric-based products such as shirts, phone and glove cases, camera bags, caps and hats, hoodies, jerseys, etc., giving them a creative customized look.

2. Application
100% cotton, 100% polyester, Polyester blends, Fabric, etc. NOTE: Not suitable for black polyester fabric.

3. Design
Make your design in computer. Recommended to mirror (by horizontal) your design after you are done.

4. Cutting
Place the HTV with smooth and glass side down. Cutting the white / inside side. Make / white side is rolling side smooth and glass side is transfer side.

5. Weed
Remove all excess unwanted vinyl.
You can leave a weeding job for small, shallow pieces.

6. Mirror design horizontally
Place the sheet with your design on to your shirt and place the letter above on the top of your design, make sure it is lined up correctly.

7. Cover sheet
Peeking the clear pad. Wait after the vinyl is cool, creating effect (this is recommended to wait 15-20 seconds for the vinyl to cool down).

USE HTV TO CREATE YOUR OWN ITEMS

- 1. Design and Cut
- 2. Weed
- 3. Iron and Heat Press
- 4. Cut and Peel

USE HTV TO CREATE YOUR OWN ITEMS

- 1. Cold Peel after 45s
- 2. Mirror design horizontally
- 3. Wash after 24 hours
- 4. Only use with mild detergent

Care Instructions

- Do not dry clean
- Machine Washable
- Do not bleach and do not iron directly on design
- Hand wash inside out after 24 hours
- Iron at low heat in dryer

HTV Heat Transfer Vinyl Rolls

DTEASY TO CUT & WEED & TRANSFER\

VinylRus iron-on vinyl is designed for custom garment decoration. Its optimal thickness makes it easy to cut without causing any damage to the clear film. The backing is pressure and temperature-sensitive, making it effortless to transfer on any t-shirt.

DTEASY TO CUT & WEED & TRANSFER\

HTV vinyl is suitable for cotton, polyester and cotton blend fabric etc. It can be used to design your canvas shoes, T-shirts, bags, coats, hats, pillows, aprons and handbags.

Our htv vinyl has premium stickiness, they adhere seamlessly to the fabric after ironing, and it can be washed multiple times without fading, peeling and cracking. It is recommended to wait 24 hours before performing the first wash.

Each heat transfer vinyl roll measures 12" x 20ft and it can be tailored at will to reduce the unnecessary waste. Perfect for 12x12" and 12x24" cutting mats. Our iron on vinyl are compatible for all cutter machines.

Cutting Plotter

※High cutting accuracy ensures even the smallest and most intricate Chinese characters are perfectly rendered.

※High cutting accuracy ensures even the smallest and most intricate Chinese characters are perfectly rendered.

※Features a simple and convenient adjustment mechanism, requiring just a light turn to set the blade.

※Multiple springs ensure even stress distribution, promoting uniform cutting and reducing material waste.

※Offers versatile connectivity options including USB, U disk, and serial ports for efficient data transfer.

Silhouette CAMEO 5

Powerful Precision Cutting

Discover the Silhouette Cameo 5, engineered for ultimate cutting precision. This advanced cutting machine features the latest technology, making it the fastest, most accurate, and quietest option in the Silhouette lineup. Perfect for a variety of projects, the Cameo 5 excels at cutting vinyl, cardstock, heat transfer material, and more. Whether you're creating custom decals, intricate scrapbooking designs, or personalized apparel, elevate your crafting experience with the Silhouette Cameo 5—the ideal tool for all your DIY needs!

INKJET PHOTO PAPER

We start inkjet media and heat transfer business from the year of 2004 , we are manufacturer of many inkjet media and heat transfer products . We have various kinds of products in inkjet media printing and sublimation heat transfer printing solution .

With about 21 years experience in inkjet media and heat transfer business , we have built long time relationship with hundreds of customers in global market , supply stable quality products , make durable profit for customers is our business spirit .

Medical X-Ray Dry Film Services

The advertising series produced by the us, such as Reverse Print Back lit Film, Waterproof Front Print Back lit Film, Eco-solvent Back lit Film & UV Back lit Film, with excellent waterproof effect, anti-oxidation, instant dry, and have strong color reproduction ability.

Inkjet Laser Printing X-Ray Blue Medical Film

1. Medical standard base PET materials and environmental protection coating.
2. Superior water resistance & instant drying, anti- crease & wet.
3. Unique anti-static back coating to avoid sticky problem.

Product Name:	Digital Laser X Ray Medical Imaging Film for Ultrasound
Thickness:	210 micron
Thickness:	210 micron
Printing type:	Laser printing
Sheet Size:	A3/ A4/ 8*10"/ 10*12"/ 11*14"/ 13*17"/ 14*17" etc.
Roll Size:	13"/ 14"/ 17"x30m etc.
Usage:	For medical graphic output, like CT, DR, MRI, etc.
Suitable Printers:	For laser printers, like Epson, Canon, OKI, etc.
Samples:	20 sheets for free.

Medical Laser Film X-Ray Dry Film Blue 210 Micro

Made of premium blue PET substrate, coated with environmental formula. It is environmental non-toxic and suitable for Long-term preservation. Waterproof, moisture proof, bending resistant and fast printing.

Product Name:	Blue Medical laser Film
Material:	Premium Polyester Film
Color:	Blue
Thickness:	210 microns
Sheet Size:	A3/ A4/ 8*10"/ 10*12"/ 11*14"/ 13*17"/ 14*17" etc.
Roll Size:	13"/ 14"/ 17"x30m etc.
Support Printer:	Laser printer
Application:	Medical image output such as CT, DR, CR, MR, etc.

Dry-Erase Friendly: Write directly on the water-resistant pouch with dry-erase markers and easily wipe away any markings

Laminates can be used for photo preservation and drawing sealing, and any document that wants to preserve long-lasting drawings and paper can be used for laminates.

Premium quality glossy surface finish, compatible with all thermal laminator machine brands

MR.R Laminator,A4 /9 inches Thermal Laminator Machine Use for Home, Office or School

Suitable for Home/Office/School:This desktop laminator suitable for Home/Office/School, used to save important documents and precious photos for personal or business.

Suitable size and thickness:9 inches/A4 wide,50/100/125 mic

High Speed:280mm/min can improve your work efficiency,avoid wrinkling, foaming and curling, and create a faster, smoother and quieter working environment

No Jam Technology:Prevent jam paper to protect the machine. Please press the ABS button to the right side and pull the laminating sheets out if the paper is not inserted straight or becomes jammed

One-key Operation:This small laminator is very easy to use, simply press the switch on and wait for the light turn green to do your lamination.

Sublimation Printer

L3218/3219 A4 Color All-In-One Printer with Built-In Ink Tank

Printer Resolution:
5760×1440 dpi
Size: 375×347×179mm
Packing Size: 58*34*24cm
Actual Weight/Volumetric Weight: 8/10kgs

Streamlined design: The printer features a built-in ink tank, optimizing space without sacrificing functionality.
Versatile Functionality: As an all-in-one solution, it supports a comprehensive range of operations including printing, copying, and scanning, designed to meet all your document management needs with efficiency and ease.

L3258 A4 Color Wireless All-In-One Printer with Built-In Ink Tank

Printer Resolution:
5760×1440 dpi
Size: 375×347×179mm
Packing Size: 58*34*24cm
Actual Weight/Volumetric Weight: 8/10kgs

App × 1 ensure a seamless setup and straightforward network configuration process.
Intelligent operation: Fully compatible with Epson's WeChat Mini Program × 2 and Huawei's HiLink Ecosystem × 3, our all-in-one printer offers a streamlined and intelligent printing experience.

The latest iteration of Smart Panel

L1218 Color Ink Tank Printer for Home

Printer Resolution:
5760×1440 dpi
Size: 375×347×169mm
Packing Size: 58*34*24cm
Actual Weight/Volumetric Weight: 7/9kgs

tank printer features an integrated ink tank, designed to minimize its footprint and maximize your workspace efficiency.
Hassle-Free Maintenance: Equipped with an intelligent ink filling system, it significantly reduces the risk of incorrect ink installation and leakage, offering a worry-free printing experience.

Space-Saving Design: Our color ink

L130 Ink Tank Printer

Printer Resolution:
5760×1440 dpi (with variable
sized droplet technology)
Minimum Ink Droplet Size: 3
picoliters
Size: 482×222×130mm
Packing Size: 56×32×22cm
Actual Weight/Volumetric

Weight: 5/8kgs

The ink tank printer delivers exceptional color accuracy and vibrancy in printing, ensuring vivid and precise output every time.

L1300 A3+ Ink Tank Printer for High Speed Printing

Printer Resolution:
5760×1440 dpi
Size: 375×347×179mm
Packing Size: 58×34×24cm
Actual Weight/Volumetric
Weight: 8/10kgs

Streamlined design: The printer features a built-in ink tank, optimizing space without sacrificing functionality.
Versatile Functionality: As an all-in-one solution, it supports a comprehensive range of operations including printing, copying, and scanning, designed to meet all your document management needs with efficiency and ease.

L8058 6-Color Photo Ink Tank Printer

Printer Resolution:
5760×1440 dpi (with variable
sized droplet technology)
Minimum Ink Droplet Size: 1.5
picoliters
Size: 547×289×187mm
Packing Size: 63×38×28cm
Actual Weight/Volumetric
Weight: 10/13kgs

system, the photo ink tank printer guarantees outstanding image quality with vibrant, long-lasting colors. Engineered with a large-capacity ink cartridge design, it offers a cost-effective printing solution to printing. With Wi-Fi wireless printing capabilities, this printer can be placed anywhere, and can be shared among multiple users. Designed to deliver both rapid printing speeds and consistent, stable output, it ensures efficiency and reliability for all your photographic printing needs.

Featuring an original six-color ink

L3218/3219 A4 Color All-In-One Printer with Built-In Ink Tank

Printer Resolution:
5760×1440 dpi
Size: 375×347×179mm
Packing Size: 58×34×24cm
Actual Weight/Volumetric
Weight: 8/10kgs

Streamlined design: The printer features a built-in ink tank, optimizing space without sacrificing functionality.
Versatile Functionality: As an all-in-one solution, it supports a comprehensive range of operations including printing, copying, and scanning, designed to meet all your document management needs with efficiency and ease.

Heat Press Teflon Transfer Sheet:12x16"one sheet,16x20"one sheet

Heat Resistant press glove:One piece

Heat Resistant press tape:1/5"x108ft(5mmx33m)one roll 2/5"x108ft(10mmx33m) one roll(7 in1 contains only 1 sheet of 12x16" Teflon sheet and 1 roll of 1/5"x108ft (5mmx33m) Heat Resistant press tape on the basis of 4 pillows and 1 piece glove plus a 10 sheets Heat transfer paper)

(The 9in1 includes all of the above, but does not include paper)

Heat Resistant Gloves

Length: 22/24cm

Withstand Limit Temperature: up to 300°C

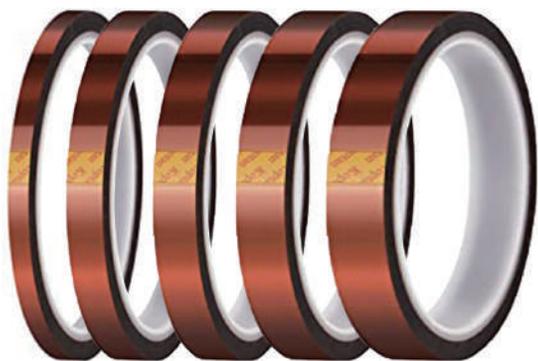

Heat Tape Dispenser

Size: 6.3×2.5×3.4cm

Packing: 24pcs/box

Color Options: red, black, blue, green

Heat Resistant Tape

Size: 5×33mm, 8×33mm, 10×33mm, 12×33mm, 20×33mm

Packing: 100rolls/box, 200 rolls/box, 300rolls/box

Heat Resistant PTFE Teflon Sheet

Thickness: 0.11mm or 0.13mm

Size: 30×40cm/40×50cm/40×60cm

White color and other sizes available for the heat transfer PTFE

Vacuum Sublimation Oven Machines

Manufacturing 16L 3D Vacuum Sublimation Oven Machines Customize Your Own Mugs Tumbler Bottles Pen Heat Press Transfer Machines

Voltage: 110V/220V

Dimensions (Length×Width×Height): 415*370*381MM

Time range: 0-20 min

Weight: 10KG

Use with the following tools to make sublimation transfer easier.

Pneumatic Heat Press

Single Station Pneumatic Heat Press

Voltage: 220V/110V
Heating Plate Size: 10×10cm,
12×12cm, 15×15cm,
20×20cm, 20×30cm,
23×30cm, 25×35cm
Net/gross weight: 50-150kg

Applications

The pneumatic heat press machine is widely used to imprint custom designs on various products such as T-shirts, hoodies, sportswear, workwear, home decorations, textiles, backpacks, cosmetic bags, etc.

Double Station Pneumatic Heat Press(Standard Type)

Quantity of Station: 2
stations
Voltage: 220V (optional
110V)
Temperature Range:
0-399℃ Time Range: 0-999
seconds
Net/gross weight: 50-200kg

Working Size:

Default: 40×60cm
Customizable: 10×10cm, 12×12cm,
15×15cm, 20×20cm, 20×30cm,
23×30cm, 25×35cm, 40×40cm,
40×50cm, 40×60cm, 50×70cm,
60×80cm, 70×90cm, 80×100cm,
100×120cm, etc.

Laser Positioning: no

Double Station Pneumatic Heat Press(Infrared Positioning Type)

Quantity of Station: 2 stations
Voltage: 220V (optional 110V)
Temperature Range: 0-399℃
Time Range: 0-999 seconds
Net/gross weight: 50-200kg

Working Size:

Default: 15×15cm
Customizable: 10×10cm, 12×12cm,
15×15cm, 20×20cm, 20×30cm,
23×30cm, 25×35cm, 40×40cm,
40×50cm, 40×60cm, 50×70cm,
60×80cm, 70×90cm, 80×100cm,
100×120cm, etc.

Laser Positioning: yes

Drawing single station pneumatic hot stamping machine

Voltage: 220V/110V
Heating Plate Size: 38x38cm, 40x40cm, 40x50cm, 40x60cm, 50x70cm, 60x80cm,
Net/gross weight: 54-208kg

Applications
The pneumatic heat press machine is widely used to imprint custom designs on various products such as T-shirts, hoodies, sportswear, workwear, home decorations, textiles, backpacks, cosmetic bags, etc.

Single station steam hot stamping machine

Stamping area: 15x15cm
Voltage: 220V/110V
Working Power: 500W
Working Temperature: 0-250°C
Working Time: 0-999s
Net/gross weight: 26kg

Applications
The pneumatic heat press machine is widely used to imprint custom designs on various products such as T-shirts, hoodies, sportswear, workwear, home decorations, textiles, backpacks, cosmetic bags, etc.

Double Station Pneumatic Heat Press(Standard Type)

Quantity of Station: 2 stations
Voltage: 220V (optional 110V)
Temperature Range: 0-399°C
Time Range: 0-999 seconds
Net/gross weight: 50-200kg

Working Size:
Default: 40 × 60cm
Customizable: 10 × 10cm, 12 × 12cm, 15 × 15cm, 20 × 20cm, 20 × 30cm, 23 × 30cm, 25 × 35cm, 40 × 40cm, 40 × 50cm, 40 × 60cm, 50 × 70cm, 60 × 80cm, 70 × 90cm, 80 × 100cm, 100 × 120cm, etc.
Laser Positioning: no

Pneumatic cap baking machine

Voltage: 220V
Temperature Range: 0-250°C
Time Range: 0-999 seconds
Net/gross weight: 35kg
Packing size: 63x39x77cm
Machine size: 58x31.5x68cm
Machine weight: 25.7kg

Working Size:
Default: 15 × 15cm
Customizable: 10 × 10cm, 12 × 12cm, 15 × 15cm, 20 × 20cm, 20 × 30cm, 23 × 30cm, 25 × 35cm, 40 × 40cm, 40 × 50cm, 40 × 60cm, 50 × 70cm, 60 × 80cm, 70 × 90cm, 80 × 100cm, 100 × 120cm, etc.

Slide up double working position steam ironing machine

Voltage: 220V/110V
Heating Plate Size: 60x80cm
Working Power: 6000kw
Working Temperature: 0-250°C
Working Time: 0-999s
Net/gross weight: 54-208kg

Applications

The pneumatic heat press machine is widely used to imprint custom designs on various products such as T-shirts, hoodies, sportswear, workwear, home decorations, textiles, backpacks, cosmetic bags, etc.

Double station hydraulic hot stamping machine

Voltage: 220V/110V
Heating Plate Size: 38x38cm, 40x60cm, 40x50cm
Working Power: 1500kw, 2600kw, 2600kw
Working Temperature: 0-250°C
Net/gross weight: 83-156kg

Applications

The pneumatic heat press machine is widely used to imprint custom designs on various products such as T-shirts, hoodies, sportswear, workwear, home decorations, textiles, backpacks, cosmetic bags, etc.

Downward sliding double-station pneumatic hot stamping machine

Voltage: 220V/110V
Heating Plate Size: 38x38cm, 40x40cm, 40x50cm, 40x60cm, 50x70cm, 60x80cm
Working Power: 1500kw, 2600kw, 6000kw
Net/gross weight: 83-405kg

Applications

The pneumatic heat press machine is widely used to imprint custom designs on various products such as T-shirts, hoodies, sportswear, workwear, home decorations, textiles, backpacks, cosmetic bags, etc.

Downward sliding double working position steam hot stamping machine

Large Format Hydraulic Heat Press Machine with Double Station

Working Size: 80×100cm, 100×120cm, 110×160cm, 110×170cm, 116×160cm

Voltage: 220V/380V optional

Featuring two work stations, this machine boasts high efficiency. It incorporates an automatic stopping mechanism for precise operation. Equipped with an advanced electronic temperature regulation system, it ensures consistent heat distribution. The machine also boasts specialized ultra-precision wire tube heating technology, optimizing thermal efficiency and performance for large format applications.

Large Format Pneumatic Heat Press Machine with Double Station

Working Size: 80×100cm, 100×120cm, 110×160cm, 110×170cm, 116×160cm

Voltage: 220V/380V optional

The machine features an automatic stopping mechanism and a digital temperature control system that achieves superior accuracy within a margin of $\pm 1-2^{\circ}\text{C}$. The full-extension slides further enhance the machine's capacity to perform heavy-duty tasks.

Automatic Hydraulic Heat Press Machine

Working Size: 80×100cm, 100×120cm, 110×160cm, 110×170cm, 116×160cm

Voltage: 220V/380V optional

Featuring two work stations, this machine boasts high efficiency. It incorporates an automatic stopping mechanism for precise operation. Equipped with an advanced electronic temperature regulation system, it ensures consistent heat distribution. The machine also boasts specialized ultra-precision wire tube heating technology, optimizing thermal efficiency and performance for large format applications.

Digital Rotary Heat Press Machine

Working Size: 170×42cm, 190×42cm, 190×60cm, 180×60cm, 220×60cm

Voltage: 220V/380V optional

Designed with a cutting-edge digital temperature control mechanism, this digital rotary heat press machine is engineered to deliver precision pressure and high-speed slitting capabilities, ensuring a clean cut without burrs. It features an integrated fuel tank for hassle-free oil refilling, complemented by an in-built blanket that guarantees even heating and minimizes deviation.
